

Creating your Google Account for the MCP Google Group

Most features of the MCP Google Group require a Google Account. If you already have a Google Account, please provide us with the email address associated with that account when submitting your membership form. If you do not yet have an account AND want access to the MCP Google Group, use the instructions below to create your account before submitting your membership form. **If you provide us with an email address NOT associated with a Google Account, you will be unable to access the MCP Google Group even after we add you.**

Visit www.google.com and click on **Sign In** at the top right of the page.

Click on **Create Account** on the next page.

Enter your information. If you want to create a new Gmail email address for your Google Account, enter the username you want below where it reads **Choose your username**. If you prefer to use an existing email address for your Google account, click on **I prefer to use my current email address**. Enter all remaining information and follow the remaining instructions.

Create your Google Account

One account is all you need
One free account gets you into everything Google.

Take it all with you
Switch between devices, and pick up wherever you left off.

Your current email address

Once your Google Account is verified, we will be able to add you to the MCP Google Group.

Please allow two weeks after submitting your membership form to be added to the Google Group before contacting us about access to it.

Contact Jared Wold (MCP Webmaster) at jaredjwold@gmail.com if you have any questions or problems creating your account.
